Press Release

Maryland Gains 11,500 Jobs in February

Since January 2015, Maryland gained 104,800 jobs

BALTIMORE, MD (March 24, 2017) – The U.S. Department of Labor's Bureau of Labor Statistics (BLS) released state jobs and unemployment data earlier today. According to the preliminary survey data, Maryland added 11,500 total jobs over-the-month. The private sector added 9,400 jobs. Two months in 2017 have posted over-the-month job gains. Maryland's preliminary jobs estimate for January was revised by BLS from a gain of 6,700 to a gain of 13,200 jobs.

The unemployment rate held steady at 4.2 percent.

"Since our administration took office, Maryland has gained an astounding 104,800 jobs, with 94,600 jobs coming from our private sector job creators," said Governor Larry Hogan. "These impressive numbers prove that we are making tremendous strides in growing and strengthening our economy, creating good, high-paying jobs, and fostering a business environment that will provide greater opportunity and a better quality of life for all Marylanders."

"Maryland's positive job growth reinforces Governor Hogan's commitment to making jobs and economic development a primary focus," said Maryland Labor Secretary Kelly M. Schulz. "The Maryland Department of Labor recently received federal funding to establish the Apprenticeship Innovation Fund which allows the State to provide incentives for apprenticeship solutions for local businesses -- affording them the ability to create more workforce opportunities."

The Education and Health Services Sector increased by 6,300 jobs. (The Educational Services subsector increased by 4,200 jobs and the Health Care and Social Assistance subsector increased by 2,100 jobs.) The Professional and Business Services Sector increased by 5,900 jobs. (The Administrative and Support and Waste Management and Remediation Services subsector increased by 5,000 jobs, the Professional, Scientific, and Technical Services subsector increased by 1,000 jobs and the Management of Companies and Enterprises subsector decreased by 100 jobs.) The Manufacturing Sector increased by 500 jobs.

Downtown Baltimore adds jobs and residents

According to the Baltimore Sun, Downtown Baltimore added both residents and jobs last year, according to an annual report released Wednesday by the Downtown Partnership. After finding that downtown employment declined in 2015, the report measuring the economic health of the blocks within a one-mile radius of Light and Pratt streets found the number of jobs rebounded last year to 122,242.

NASA to grant \$87.5 million to space research group including UMd., UMBC

According to the Baltimore Business Journal, University of Maryland, College Park and University of Maryland, Baltimore County are leading partners in a research group set to receive a \$87.5 million grant from NASA to build on 10 years of space study. Center for Research and Exploration in Space Science and Technology (CRESST) was launched in 2006 and includes UMD, UMBC and the Universities Space Research Association.

Iron fence maker expands in Laurel, to add 50 jobs

A distributor of decorative fences and gates is expanding manufacturing operations in Howard County and plans to add 50 new jobs over the next two years. Iron World said Thursday it will invest \$1 million to streamline its operations and cut costs to increase sales and boost production by 300 percent.

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period which includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor-management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.
